

CAIO LEAL DA SILVA

Junior Full Stack Developer

Cotia – SP | (11) 96637-2547 | lealcaio21@gmail.com | github.com/CaioLeal | linkedin.com/in/caiolealsilva

SUMMARY

Full Stack Developer in training (Systems Analysis and Development – Uninove), with 15 projects delivered as a freelancer using HTML, CSS, JavaScript, PHP, Java, Python, and MySQL. Experienced in developing 10 websites and landing pages for real clients, applying web development knowledge to build functional and responsive solutions. Seeking a junior or internship position to apply technical knowledge and grow professionally in a team environment.

TECHNICAL SKILLS

- **Languages:** JavaScript, PHP, Java, Python, SQL, HTML5, CSS3.
- **Databases:** MySQL — modeling, queries, CRUD.
- **Integration:** REST API consumption, authentication, JSON.
- **Version Control:** Git, GitHub (branches, pull requests).
- **Others:** Responsive interfaces, requirements gathering, React, Bootstrap, Tailwind, Vite, Node.

PROFESSIONAL EXPERIENCE

Freelance Developer | Self-employed 2024 – *Present*

- Developed 10 institutional websites and landing pages for small businesses, from scratch to deployment.
- Integrated third-party REST APIs for geolocation, ZIP code lookup, and payments to add dynamic features.

Administrative and Financial Assistant | Game Station *Dec/2022 – Dec/2025*

- Processed numerous financial entries and reports on a monthly basis.

Apprentice — Surety and Special Risks | Sompo Seguros *Dec/2017 – Jul/2018*

- Supported the analysis of hundreds of policies/processes per period, following industry compliance standards.

FEATURED PROJECTS

- **FieldStats** — Sports Analytics Platform — Tech Stack: C#/.NET 8, ASP.NET Core, Entity Framework Core, JavaScript/Vite, SQLite, Docker, GitHub Actions. Quantitative analysis platform for football matches featuring dashboards, statistics, heatmaps, individual analysis, side-by-side comparisons, tactical board, and player tracking. Built with Clean Architecture, automated tests, CI/CD, and computer vision features.
- **SkillTrack Análise** — Tech Stack: JavaScript, Supabase / PostgreSQL, REST APIs, HTML5, and CSS3. Platform created for monitoring tactical performance of football players, including landing page, user registration system, sports profile management, and data persistence. Outcome: software running in a production environment supporting talent management.
- **iPhone 17 Pro Landing Page** — Tech Stack: React, Tailwind CSS, Vite, and Lucide Icons. Development of a responsive landing page inspired by the Apple ecosystem, featuring componentization in React, responsive interface, animations, visual effects, and dynamic model/color switching using state management with useState.
